Special registration code for Fox River Grove Students!

GRADES K–8

This online class takes a hands-on approach to science, engineering and computer programming, allowing students to explore a variety of fun and educational activities using common household materials. Under the guidance of a live instructor during each 45 minute session, students will improve their problem solving, math, and physics skills – all while engaging in exciting science and coding projects! This class also includes video lessons to guide students through the creation of additional projects outside of class time!
